

Item 7.1 Petitions - Trial of safety improvements at Bridge/Pickles/Glover intersection

Question from Councillor Pearl

Can officers provide information on any commonalities between the six reported accidents?

Response

Officers have completed a review of the six crashes at the intersection and identified two similarities.

1. Four of the six crashes occurred when vehicles turned right into Bridge Street from Pickles Street.
2. Five of the six crashes occurred when from drivers performing a cross intersection movement (left turn, right turn or through movement) did not give way to vehicles travelling north along Pickles Street.

A detailed report will be provided to Councillors for consideration at the Council meeting on 4 August 2021.

**Please note: answers to any questions in Public Question Time and Councillor Question Time which were answered at the meeting are included in the minutes of that meeting.*
