

300 x 300mm 'Versatac' Granite directional TGSIs or equivalent approved by Council installed on 25mm bedding mortar. Directional TGSIs are required if the distance is greater than 3000mm between the building line and the top of the ramp or if the ramp is not aligned with the building line.

300 x 300mm 'Versatac' Granite hazard TGSIs or equivalent approved by Council installed on 25mm bedding mortar. Hazard TGSIs shall be installed perpendicular to the pedestrian line of travel.

50mm wide x 40mm thick 'Panda' Granite inlay with exfoliated surface fixed with resin mortar by Eigen Stones, Bamstone, Melocco Stone or approved equal supplier.

NOTES

1. Where the space between ramps is less than 500mm, joined ramps shall be used.
2. In corner situations where the pavement in one street differs from the other, extend the use of the higher quality material around the corner and make a transition at the side of the ramp.
3. Ensure that the design of all ramps and the provision of tactile ground surface indicators (TGSIs) are in accordance with: Australian Standard AS1428 (all applicable parts).
4. All dimensions are in millimetres unless noted otherwise.
