Strategic assessment of the Amendment

Why is the Amendment required?

The amendment is required to give effect to a series of updates and technical corrections to the Port Phillip Planning Scheme, to remove redundant provisions and to ensure the Scheme remains current and provides a clear basis for decision making. To that effect, the amendment proposes to:

- update and align zoning boundaries to title boundaries to ensure clear and consistent planning scheme provisions
- correct an historic zoning anomaly where houses of heritage significance and in a predominantly residential area are located within the Commercial 1 Zone.

The amendment will also give effect to the findings of the *Port Phillip Heritage Review Update* (David Helms Heritage Planning, February 2019) which reviewed a list of anomalies and outdated heritage provisions identified by Council officers and members of the community over a period of time. The Amendment will respond to these findings and address a number of heritage gaps identified by the study by:

- applying the Heritage Overlay to identified properties found to be significant
- removing the Heritage Overlay from select properties following redevelopment
- changing the grading of identified properties found to be significant, contributory or of no significance
- updating or introducing new citations for places of heritage significance
- making minor corrections to existing significant places in the schedule to the Heritage Overlay (Clause 43.01)
- introducing new Statements of Significance for proposed new heritage places in the schedule to Clause 43.01 and the schedule to Clause 72.04.

The amendment will also give statutory effect to the findings of the following reports:

- *Heritage Assessment, 588-590 City Rd, South Melbourne* (Context Pty Ltd, May 2017).
- *Heritage Assessment, 2-6 Blanche Street and 110-118 Barkly Street, St Kilda* (Context Pty Ltd, December 2017).
- *Heritage Assessment, 58 - 60 Queens Road, Melbourne* (Peter Andrew Barrett, November 2017).

New and updated heritage places have been assessed in accordance with the Burra Charter, Heritage Victoria guidelines and the *Planning Practice Note 1: Applying the Heritage Overlay*.

Justification for the specific changes proposed are described in detail in the tables of this report and the background reports.

How does the Amendment implement the objectives of planning in Victoria?

The amendment is considered to implement the objectives of planning in Victoria by providing for the fair, orderly, economic and sustainable use and development of land, securing a pleasant, efficient and safe working, living and recreational environment for all Victorians and visitors to Victoria, to facilitate development in accordance with these objectives, and balancing the present and future interest of all Victorians.

How does the Amendment address any environmental, social and economic effects?

The amendment will have a positive environmental impact through protecting places of historic significance and allowing the reuse and recycling of existing building stock. The Victorian heritage strategy, *Victoria's Heritage, strengthening our community* (DSE, 2006), details the environmental benefits of conservation in Chapter 2, specifically:

- *"Heritage policies and programs can help achieve the broader goals of sustainability. Conserving heritage places and giving them new life supports sustainability. It recognises the embodied energy and life-cycle value of traditional materials, and reduces the waste associated with demolition and new buildings."* (p21)

The amendment will have a positive social and economic effect through the preservation of historically significant places often which reflect social history, for the benefit of current and future generations.

The amendment will not have significant economic effects on the wider community. However, it is likely to impose some additional costs on the owners or developers of the properties to be included in the Heritage Overlay for the first time through increased planning permit requirements. The economic effects of requiring a planning permit may be reduced through the availability of Port Phillip's heritage, urban design and planning officers' free-of-charge at any time prior to, during, or following the planning permit application process to assist in the planning permit process.

Does the Amendment address relevant bushfire risk?

The municipal area of Port Phillip does not have any designated bushfire prone areas.

Does the Amendment comply with the requirements of any Minister's Direction applicable to the amendment?

The amendment is consistent with *The Form and Content of Planning Schemes* Ministerial Direction under Section 7(5) of the Planning and Environment Act.

The amendment is consistent with Ministerial Direction 9 which requires planning scheme amendments to have regard to the Metropolitan Planning Strategy. The amendment is consistent with Direction 4.4 of the *Plan Melbourne 2017-2050* in seeking to *"respect our heritage as we build for the future"* as it proposes to make changes to ensure the Planning Scheme continues to guide appropriate development in the municipality, and that the built heritage of the municipality is retained and respected. Specifically, it is consistent with the following:

- 4.4.1 - Recognise the value of heritage when managing growth and change.
- 4.4.3 - Stimulate economic growth through heritage conservation.
- 4.4.4 - Protect Melbourne's heritage through telling its stories.

The amendment has complied with Ministerial Direction 11 which requires a comprehensive strategic evaluation of a planning scheme amendment and the outcomes it produces.

How does the Amendment support or implement the Planning Policy Framework and any adopted State policy?

The amendment supports the Planning Policy Framework objective to ensure the conservation of places of heritage significance (Clause 15.03-1S). The heritage assessment for the updates and corrections has been conducted by a suitably qualified, independent consultant and confirms that the new heritage controls are of local significance which warrants the application of strengthened heritage controls in the Port Phillip Planning Scheme.

How does the Amendment support or implement the Local Planning Policy Framework, and specifically the Municipal Strategic Statement?

This amendment is consistent with the objectives and strategies outlined in the Local Planning Policy Framework of the Port Phillip Planning Scheme, particularly the vision set out at Clause 21.05-1 (Built Form, Heritage) of the Municipal Strategic Statement and policy to guide the application of discretion at Clause 22.04 (Heritage Policy). More specifically, Clause 21.05-1 seeks the conservation and enhancement of the architectural and cultural heritage of Port Phillip, with policy seeking to:

- protect, conserve and enhance all identified significant and contributory places, including buildings, trees and streetscapes;
- Protect the original subdivision patterns within heritage places;
- support the restoration and renovation of heritage buildings and discourage their demolition;
- encourage high quality design that positively contributes to identified heritage values;
- ensure that new development respects and enhances the scale, form and setbacks of nearby heritage buildings;
- encourage urban consolidation only where it can be achieved without affecting heritage significance;
- maintain the visual prominence of historic buildings, local landmarks and icons.

How does the amendment support or implement the Municipal Planning Strategy?

This strategic consideration only applies if the planning scheme includes a Municipal Planning Strategy (MPS) at Clause 02. The Port Phillip Planning Scheme does not contain an MPS.

Does the Amendment make proper use of the Victoria Planning Provisions?

The Schedule to the Heritage Overlay is the appropriate Victoria Planning Provision tool for the introduction of heritage controls to properties identified as being of local heritage significance. The proposed application of the Heritage Overlay is consistent with *Planning Practice Note 1: Applying the Heritage Overlay*.

The Amendment will address zoning anomalies. Where a site is in two zones, the most appropriate zone is applied to the entire site.

How does the Amendment address the views of any relevant agency?

The relevant agencies affected by the amendment are the Department of Transport, Department of Health and Human Services, Department of Education and Early Childhood Development, Parks Victoria, CitiPower / Powercor Australia Ltd, Melbourne Water, and Fishermans Bend Taskforce.

The relevant agencies have been informed of the Amendment.

Does the Amendment address relevant requirements of the Transport Integration Act 2010?

The amendment is not likely to have a significant impact on the transport system, as defined by section 3 of the *Transport Integration Act 2010*.

Resource and administrative costs

The City of Port Phillip has the capacity to accommodate any additional planning permit applications that are triggered by this amendment. A total of 14 additional properties will have a Heritage Overlay applied. In the context of the heritage controls across the municipality, this is a minor increase of properties affected by a Heritage Overlay.

The proposed changes to the gradings do not affect the number of planning permit applications, as the Port Phillip Heritage Review Incorporated Document does not trigger a planning permit, it provides guidelines for assessment of planning permit applications.

The amendment will not require additional planning staff resources, nor will it create unreasonable considerations that would cause delays for the application to be considered within the prescribed timeframe.

The amendment will streamline planning permit applications on sites that are currently in two zones. Addressing these zoning anomalies will increase the clarity of the Planning Scheme to external key stakeholders and will assist with a streamlined planning assessment by the Responsible Authority.

Where you may inspect this Amendment

The amendment may be viewed online at the City of Port Phillip website: <http://www.portphillip.vic.gov.au/planning-scheme-amendments.htm>.

The amendment can also be inspected free of charge at the Department of Environment, Land, Water and Planning website at www.planning.vic.gov.au/public-inspection.

Note: The Victorian Government has introduced the COVID-19 Omnibus (Emergency Measures) Bill 2020 which includes temporary changes to the Planning and Environment Act 1987. The changes ensure that the planning process in Victoria can continue, despite the closure of many state and local government offices and public health measures that include physical distancing requirements.

The changes mean that planning documents previously required to be physically available to view at state and local government offices are now only required to be available for online inspection. This includes copies of planning scheme amendment documentation.
