## Read before starting

### Insurance

The Permit holder must maintain a comprehensive public liability insurance policy for a minimum of \$20,000,000, with an insurer approved by the Australian Prudential Regulation Authority which shall remain current for the term of the Permit. The permit holder must also provide a certificate of currency noting Council as an interested party.

### Indemnity

The Permit holder agrees to indemnify and to keep indemnified, the Council, its servants and agents, and each of them from and against all actions, costs, claims, charges, expenses, penalties, demands and damages whatsoever which may be brought or made or claimed against them, or any of them, in connection with the Permit Holders performance or purported performance of its obligations under this Permit and be directly related to the negligent acts, errors or omission of the Permit Holder.

The Permit Holders liability to indemnify the Council shall be reduced proportionally to the extent that any act or omission of the Council, its servants or agents, contributed to the loss or liability.

### Site plan/drawing

A detailed site plan/drawing of the site of construction is required, and must show the following:

- All physical constraints (posts, poles, infrastructure, street trees); and
- Dimensions of the frontage of the property including the proposed location of the temporary crossover.

In some circumstances, due to the level differences between the property boundary, kerb invert and road surface, the vehicle crossing as allowed by the standard permit may not be suitable for all vehicle types and scraping may occur. If you think a steep vehicle treatment may be required please contact us.
